

Save Time with Powerful Automation and Integration

Focus on People, Not Admin

Eliminate time wasted on manual onboarding and user management so you can focus on what matters most – developing your people.

Interplay supports 60+ pre-built integrations with the industry's most popular HR systems for effortless implementation and onboarding.

What's more, once employees are onboarded, it's easy to assign them the right courses, learning paths, and due dates with our auto-assignment capabilities. With Interplay, you can increase operational efficiency and streamline training across your entire organization.

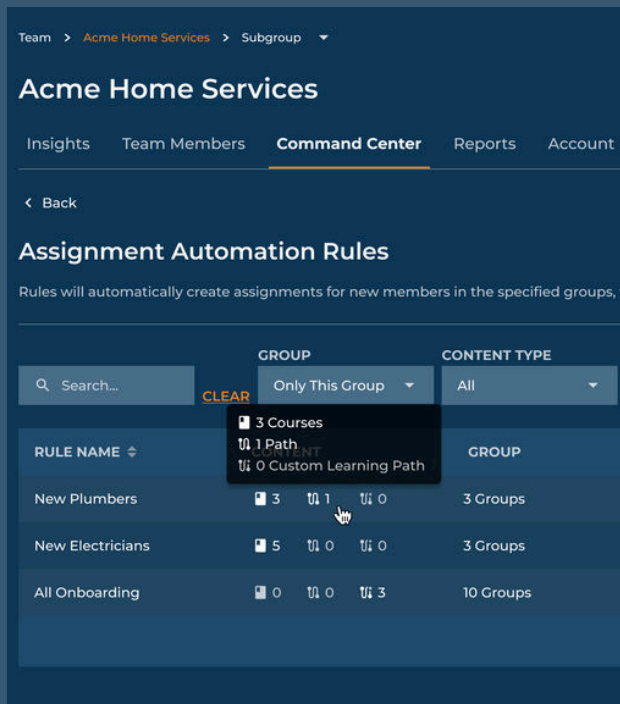

Management Made Simple

Make your tools work better together with seamless integrations that connect our industry-leading platform with your software applications.

- **Secure Access-in:** Simplify access with secure login through Single Sign-On (SSO).
- **Informed Insights:** Unlock valuable insights by integrating Interplay's data into your systems via API, empowering informed decision making.
- **Learning Integration:** Leverage our content in your LMS, adding Interplay's robust training content via SCORM or LTI to your learning platform and its existing features.

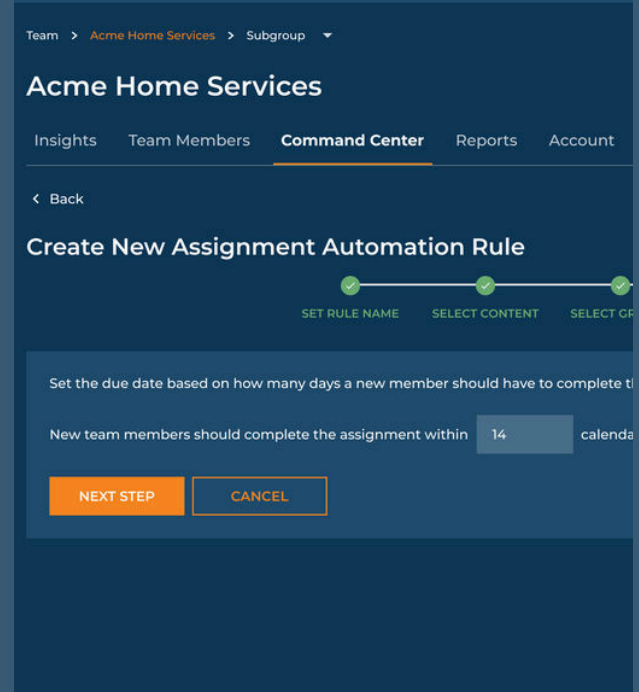

Simplify Management with Auto-Assignments

Say goodbye to manually managing course assignments, learning paths, and due dates.

Auto-Assign Paths and Courses

Set it and forget it with auto-assignments of courses, paths, and due dates.

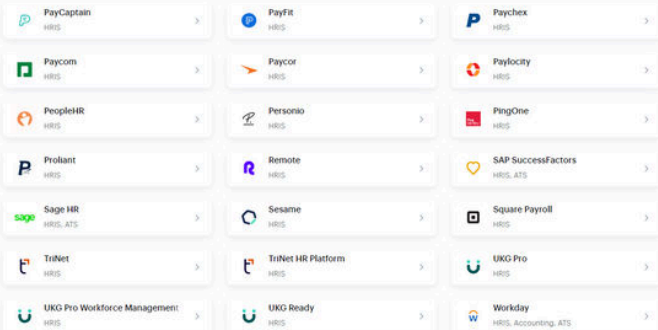

Use Dynamic Due Dates

Let our system calculate the due dates for you based on the time window you define.

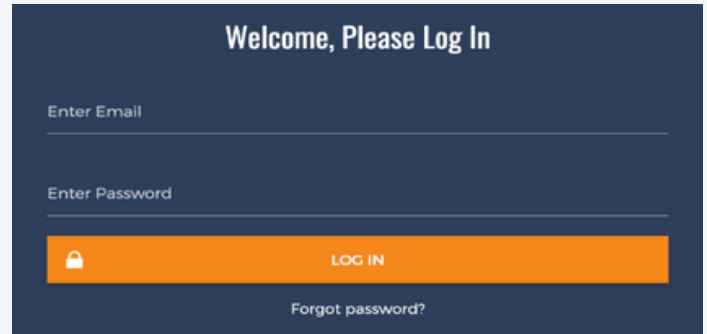

Integrate Training with Your Software Stack to Streamline Operations

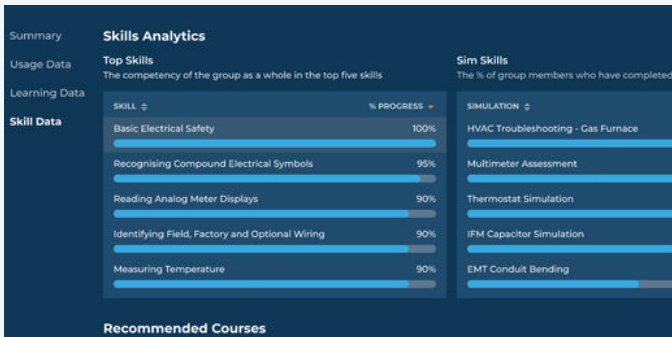

Connect HR and Training

Leverage 60+ pre-built HRIS integrations to automatically and securely add, remove, and update learner information.

Provide Safe and Secure Login

Use Single Sign-On (SSO) to enhance security and convenience by allowing employees to log in with one set of credentials.

Integrate Reporting Data

Integrate powerful data from Interplay's career development platform into your system(s) via an API to store your data in one place.

Use Our Content in Your LMS

Bring our trades training into your LMS to provide a seamless learning experience for you and your employees.
